In advance, per annum.....\$1.50
If not paid till end of three months..... 1.75
If not paid till end of six months..... 2.00
By carrier, fifty cents extra.
Fifteen cents a year is added to paper sent out of the country to cover prepayment of postage.
These terms will be strictly adhered to.

TO MAIL SUBSCRIBERS.
Please be certain that the date on the name label on your paper indicates the time to which you have paid your subscription. If it does not, please notify us immediately. In keeping these accounts with so many different subscribers errors are liable to occur, and we take this method to keep correct accounts with mail subscribers. If the label is not corrected within two weeks after we should have received payment please notify us. We are even more anxious than you to have the account correct.

OUR AGENTS:
The FREE TRADER may be obtained at the following places by the single copy, or subscription will be taken for any length of time at the regular rates.
R. H. POOLEY, Berens, Ill.
J. H. THORNTON, Marseilles, Ill.
D. H. UNDERHILL, Seneca, Ill.
L. T. VAN DUSEN, Grand Ridge, Ill.
GEORGE H. HEDDER, for Troy Grove, Oak and Walnut. Address, Troy Grove, Ill.

Timely Topics.
Not believing in the adage that "matches are made in heaven," a St.reator paper calls its town "Our matchless city."
According to the valuation of 1885, La Salle county stands third, as follows: Cook, \$145,399,147; McLean, \$18,649,101; La Salle, \$18,227,896.
When the Soldiers Home Commission arrived at Joliet last Friday they found no one at the depot to receive them. No such an incident was possible in Ottawa.
The editor of the *Tonica News* bewails the dearth of items in his little village by stating that the bulk of the people are busy threshing, and that at night they do nothing but listen to the concerts of the katydids. In the face of this valid excuse, Richardson ought to go fishing or hunting for a month or two until threshing is over.
The editor of the *Morris News* is eager for a reputation as a first-class liar. He is responsible for the statement that a physician of that city gave a lady an emetic for a stomach trouble, and she threw up a live lizard. If she had vomited up a live alligator Nattlinger would have claimed it as the one he pretended to have seen in the river here.

Turf Talk.
Louis W. Hess has in a show case at his store a number of shoes worn by some of the most famous horses in the country, including St. Julien, 2:11 1/4; Richball, 2:12 1/4; Fuller, 2:13 1/4; Mattie Woodward, 2:15; Harry Wilkes, 2:15; Driver, 2:19 1/2; Toney Newell, 2:19 1/2; Lottie P., 2:17 1/4; Big Soap, 2:23 1/4; Benny, 2:20; Belle Echo, 2:20; Ottawa Chief, 2:25; H. B. Winship, 2:06 1/2, with running mate; Westmont, 2:01 1/4, with running mate; Phyllis, 2:15 1/2, and others. Mr. Hess has been promised shoes of Jay-Ee-See, 2:10 1/4; and Phyllis, 2:13 1/2. These trophies of the turf, presented by drivers and owners, Louis prizes highly and would not part with for a small fortune.

Among the trotters and pacers which were at Ottawa during the races and which took first prizes at Freeport last week were Georgiana, a Genesee horse owned by M. E. McHenry, that lowered her record to 2:26 1/4; Lottie P., who won the pace, beating her old competitor Silverlaid in straight heats, best time 2:19; Gypsy Girl, who won in best time of 2:30 1/2; and Roger B., who made a record of 2:26.

You cannot attend to business while your mental and nervous organism is deranged—you have no appetite, your strength is exhausted, and have no heart for anything. If you take Nichols' Bark and Iron regularly, you will find your appetite restored and your strength and vigor renewed.

Robt. P. Porter, in his Industrial Series, in the Inter Ocean recently, gives the following figures of the exportation of glass from Belgium:

1873.....	\$ 6,297,200
1874.....	7,835,600
1875.....	8,009,800
1876.....	7,702,500
1877.....	7,574,400
1878.....	8,645,200
1879.....	9,111,600
1880.....	9,911,600
1881.....	10,888,000
1882.....	10,583,000
1883.....	11,329,400

On which figures he makes the following remarks: "The exports of glassware from the small country of Belgium, as we have seen in the table given above, are equal in value to half the total product of the glass factories of the United States, which in 1880 aggregated \$21,154,000. There are at least seventy establishments in Belgium, employing over 12,000 men who receive annually in wages, 15,000,000 francs (\$3,000,000), being an average of 3 francs 45 centimes (about 70 cents) per day. The salaries in this industry are regarded in Belgium as excellent. Some of the hands earn as much as \$1.50 and even \$2 a day. In the glass-works in the vicinity of this town, namely, that of Val Saint Lambert, about 1,800 workers are employed. The first cutters are paid \$5 per week; second cutters, \$4, the same as the polishers. The common laborers earn \$3 to \$3.50 per week. Apprentices are paid 20 cents a day. Over 300 women are engaged here. They are paid by the piece, and can earn 40 to 45 cents per day. The estimates heretofore published in consular reports, etc., of glass-workers' wages in Belgium have, in my opinion, been altogether too high. The most complete and simplest statement is the one given above, which would indicate that the average earnings of all classes of glass-workers are \$1 a day, counting 230 days in the year. No wonder Belgium worksmen will come to America and work for, say, half American glass house prices, and consider themselves lords of creation at that!"

The Soldiers' Home.
It strikes us that the FREE TRADER is a little too previous in some of its assertions in relation to the action of the commission to locate the old soldiers' home. We agree with the FREE TRADER that a more fitting place for the institution cannot be found in the state than Buffalo Rock, but we doubt very much that the commission made the statement that of the 17 points examined "12 were rejected as untenable and out of the question," and that Buffalo Rock "was the best site visited."—*Globe*.

The above is from the Ottawa *Globe* and does not state the case honestly. The information received by a representative of this paper comes direct from Fred. O. White, mayor of Aurora, and a member of the commission. He stated that 12 of the sites offered had been rejected, but neither he nor the FREE TRADER stated "of the 17 points examined 12 were rejected." Mr. White also stated that "Buffalo Rock was the best site so far visited." This is some of the outside history of the matter, friend Stevens.

Our Kindest Regards.
At a meeting held at the council on Friday night of last week, the following resolutions were adopted:

Resolved, That the citizens of Ottawa, recognizing the gentlemanly bearing and soldierly conduct of the officers and men composing the First Brigade of the Illinois National Guards, lately encamped at Buffalo Rock, near our city, appreciating the many kindnesses shown us by the commanding general, staff, field and line officers of the brigade as well as the manly and soldierly bearing of the men, respectfully tender the officers and soldiers of the First Brigade our kindest regards and assure them that their coming among us has been a pleasure appreciated by all who had the good fortune to meet them, either in camp or in the city.

Resolved, That we recognize in the officers and men, composing the First Brigade gentlemen eminently worthy to represent the extreme power of the State.

Resolved, That a copy of these resolutions be forwarded to the commanding General of the First Brigade.

E. C. ALLEN, President.
C. L. STAMATE, Secretary.

Brooks. Hello, neighbor Jones, have you got back?
Jones. Yes, I've got back, and a back ache that has gripped me for three days, night and day. So I gave up and came home, but what I'm to do I don't know.
Brooks. Well, I know. Get Dr. Carpenter's Calculi Resolvent, and take according to directions, and I'll guarantee a cure in two days or less. I know, for I've tried it myself for that very trouble.
Jones. Well, I'll do it. Where can I find it?
Brooks. At the nearest druggist's.

Durkee, the fellow who recently threw a stone with such force as to break the leg of Felix, a fellow workman, could not be found Monday afternoon. When Jim Cross went with the necessary papers to gather him in. He jumped his straw bail and faded from sight.

Prosperity.
It is asserted that agriculture is the basis of our national prosperity and wealth. The annual value of the crop and animal products of one State (Illinois) exceeds three hundred millions of dollars. The merchant, manufacturer, farmer and consumer generally are much gratified and greatly encouraged at the prospects for abundant crops.

The quality of the 1885 hay crop is excellent and there is no complaint as to the extent of the yield. The extraordinary crop of oats harvested this season exceeds that of any previous year. The area of the growing crop of corn largely exceeds the crops grown in this State of late years and the prospects have never been better for an abundant yield per acre of corn, at corresponding dates for many years past. It is a grand sight to the traveler this season to view the hundreds of miles of almost unbroken fields of luxuriant corn in this State, and inspiring to contemplate the millions of wealth represented in the growing crop.

The most intelligent and progressive farmers and stock breeders of the country and the leading spirits in many other lines of business are deeply interested in the Agricultural Fair, and are now making unusual preparations for the great Fair to be held in Chicago this season. The premium lists, stock, farm, products, horticultural displays, collections of art, etc., exhibited at the thousand or more of county and district fairs, will as usual find their way to the great Fair at Chicago, which opens on Monday, September 14, 1885.

The Illinois State Board of Agriculture has given each industry represented at the Illinois State Fair encouragement in proportion to its importance to the other interests demanding the fostering care of this association. The managers of the Illinois State Fair since its organization have offered more than one-third of a million of dollars in premiums to the enterprising people of the world as an incentive to exhibit the best results in breeding live stock, the skill of the inventor and manufacturer of labor-saving farm machinery and implements, the growing of superior specimens of agricultural products, etc., etc.

The managers of the Illinois State Fair have made many additions to the premium list this season and largely increased the handsome inducements heretofore offered. The premiums offered the several departments of the Fair this season aggregate over twenty-four thousand dollars. This large sum of premium money is apportioned as follows, viz: Cattle, \$2,150,000; Horses and Speed, \$11,791,000; Sheep, \$2,130,000; Hogs, \$1,855,000; Poultry, \$965,000; Farm Products, \$688,000; Horticulture, \$1,122,000; Fine Arts, \$499,000; Textile Fabrics, \$618,000; Science and Education, \$1,210,000 and Dairy, \$120,000.

The large premiums offered will induce exhibitors from all parts of the country to attend the great Fair at Chicago, and it is believed that the additional facilities provided by the large number of railroads centering at the place of exhibition will enable the vast crowds to speedily reach the Fair without inconvenience.

Cheer Up! Help is at Hand.
"I'm afraid I shall have to be taken to the hospital or to the poorhouse. I've been sick so long that my husband, good and kind as he is, can't stand the worry and excitement any longer." No, what Parker's tonic will do for you. Plenty of women as badly off as you are, have been rescued almost from the grave by it. It will build you up, curing all ailments of the stomach, liver and kidneys, and is simple, pleasant and safe.

What We Are Indebted to the South For.
There appears in our columns to-day the advertisement of the well-known (and universally used in the Southern States) Simmons Liver Regulator. Years ago it won its way into every household of the South by pure, sterling merit. It takes the place of a doctor and costly prescriptions. The medicine is becoming widely known in the North, and wherever used the demand for it has steadily increased. It is a family medicine, containing no dangerous and deleterious ingredients, but purely vegetable, and so gentle in its action that it can be safely given to any person, no matter what age—the centenarian or the crowing youngster. Working people are often in that miserable state of health which renders them unfit for labor; but they haven't time to take medicine and be sick. Simmons Liver Regulator can be taken without causing any loss of time, and the system will be built up and invigorated by it. The Regulator promotes digestion, dispates nasty sick headache, and gives a strong, full tone to the system. In malarious climates it is invaluable, both protecting against the disease and expelling the poison after it has entered the system. It has no equal as a preparatory medicine, and can be safely used when a doctor cannot be called in. Persons of the very highest character and endurance have given Simmons Liver Regulator their cordial and hearty endorsement.

A Texas newspaper utters good sense in the following paragraph: "We can't quell a domestic riot or put a quietus to family jars by simply banging up a green worsted motto of 'God Bless our Home.' Neither can we support our families by suspending the other proper motto 'The Lord will Provide.' It is honest toil that makes the kettle boil."

You cannot attend to business while your mental and nervous organism is deranged—you have no appetite, your strength is exhausted, and have no heart for anything. If you take Nichols' Bark and Iron regularly, you will find your appetite restored and your strength and vigor renewed.

Judge Mason says that when death comes to close his eyes in that sleep that knows no awakening, he will fold his garments around him and lie down in peace, thankful that the Great Master has seen fit to cast the days of his life in the grandest era of the world's history and the greatest of the United States. He has lived during fifty years of progress in civilization such as never again can be surpassed and has never been equalled.—*La Salle Times*.

Not a Single Gray Hair.
"You may laugh and think me a vain thing," writes Mrs. J. R. C., of San Francisco, to a friend in this city, "but I have not a gray hair in my head, and yet (and to say I am fifty and a day. Recently my hair was not only quite gray but quite thin. Dr. Parker's Hair Balsam—made in New York, I think—did wonders for me. Try it if you have occasion. It really does what I say and restores the color also. Not a dye, not greasy, highly perfumed. Only reliable 50c dressing."

A number of Mendota citizens have subscribed to a fund to be expended in prospecting for natural gas in that vicinity. The scope of country included in what is known as the Mendota Gas Belt, commences near McIntire's farm, four miles north of that city, and extends over an area of about five miles in breadth and about 40 miles in length—terminating in Bureau county, not far from Wyanet.

Mr. and Mrs. Camp, living near Macon, Ills., have given a 360-acre farm, of the value of \$27,000, to the Illinois Wesleyan University, a Methodist institution at Bloomington.

"Rough on Rats."
Clears out rats, mice, roaches, flies, ants, bedbugs.

"Rough on Corns."
Ask for "Rough on Corns." It's quick complete cure. Hard or soft corns, warts, bunions.

"Rough on Piles."
Quick, complete cure, all kinds of Piles and Hemorrhoids. Scalding, irritation, Stomach, Gravel, Catarrh of the Bladder, St. Druggists.

"Rough on Fleas."
Fleas, roaches, ants, bedbugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats," etc.

"Rough on Pain."
Cures cholera, colic, cramps, diarrhoea, aches, pains, rheumatism, neuralgia, inflammation, etc. "Rough on Pain" Plasters, etc.

"Rough on Mothers."
If you are falling, broken, worn out and nervous, use "Rough on Mothers" Druggists.

"Rough on Piles."
Cures Piles or Hemorrhoids, itching, protruding, bleeding, internal or other. Internal and External Remedies in each package. Cures, cure, cure. Druggists.

"Rough on Itch."
Cures Piles or Hemorrhoids, itching, protruding, bleeding, internal or other. Internal and External Remedies in each package. Cures, cure, cure. Druggists.

"Rough on Catarrh."
Corrects offensive odors at once. Complete cure of worst chronic cases, also, immediately as gargle for Epithelitis, Stomach, Throat, Food Breaths, etc.

"Rough on the Hoof of the Nation."
Children, slow in development, puffy, scrawny and delicate, use "Rough on the Hoof of the Nation."

"Rough on the Hoof of the Nation."
Children, slow in development, puffy, scrawny and delicate, use "Rough on the Hoof of the Nation."
